Date: Thursday, August 3, 2017 3:31:00 PM

This was the initial meeting with ODEQ to understand the situation with the fill material that was taken from the site.

Follow-up question:

Do you know what the meeting was about?

I think it had to do with the bridge contamination in Bristow, OK – when dirt was moved from the superfund site to the bridge project site.

OK, so this was shared with her in a prior FOIA?

Here is the list, which she has. She has a grand FOIA that includes all of the ODOT information.

There is no summary of the meeting. This was the initial meeting with ODOT to understand the situation.

Subject: Media inquiry on Wilcox site

Hi Katrina—

I got another inquiry about the Wilcox site. See below. Does this meeting sound familiar? (I'm guessing HUB is a contractor for ODOT.)

Thanks,

Jennah

x2287

On Sept 24, 2015 – who with ODOT (name/title) and who with HUB Construction (name/title) attended a meeting with the EPA about the Wilcox Superfund Site being near the 8th street bridge project in Bristow, OK?

Is there any documentation of that meeting or what was said in that meeting?
